SUMMARY

+3 years experienced in IT and a **front-end developer**, interested in writing codes, skilled at developing complex solutions, creating responsive designs, possessing strong creative thinking skills, high energy and integrity. Ability to create algorithms effectively, and interact positively and communicate appropriately with team members. Quickly grasp new technologies and concepts to develop innovative and creative solutions to problems. Always eager to learn various technologies, tools and libraries. Especially interested in the **Front end/Web Development, HTML, CSS, JS, React**. Excited to learn new things and improve, lifetime student.

WORK EXPERIENCE

Business Development Specialist 2021 - 2022

- I reviewed the developments, activities and operations of clients and prospects to help identify potential opportunities for industry groups or offices.

Turkish Armed Forces

Headquarters Personnel Branch Manager 2015 - 2019

- I made presentations about the staff using Microsoft PowerPoint.
- I led staff meetings.
- I carried out a project on mobilization processes.
- I wrote various applications about personnel tracking processes using Microsoft Excel.
- I created a database containing all the data about the personnel.

Head of Military Service 2013 - 2015

- I created a database for new recruits.
- I have made various correspondences regarding the status of those who have completed and continue their military service.

Communications Specialist 2009 - 2013

- I provided support to my team in communication.

Administrative Petty Officer 2006 - 2009

- I made correspondence with the staff using Microsoft Word.
- I tracked personnel information using Microsoft Excel.

TECHNICAL SKILLS

HTML5 | CSS3 | JavaScript | React.js | SASS | Bootstrap5 | Axios | Python | SQL | Git | GitHub | APIs | Agile | Jira | SDLC | RESTful APIs.

SOFT SKILLS

Analytical Thinking | Problem-Solving Abilities | Self-Motivated | Strong Communication | Project Management | Planning | Time Management | Adaptability | Continuous Learning | Collaboration & Teamwork | Coaching Mindset | Resilience | Curiosity | Emotional Intelligence | Creativity.

PROJECTS

- **Sass Project** : In this project, portfolio website is designed using HTML and SASS (SCSS) codes for style. In this Sass/SCSS project, I structured a project into separate files and folders. *Skills/Tools : HTML, Sass/SCSS*
- **Bootstrap Project** : In this project, the Clarusway School Website was designed using HTML and Bootstrap-5 for styling. The purpose of this Bootstrap-5 project is to enable the use of Bootstrap-5 (class names) for styling and to take advantage of CSS Frameworks. *Skills/Tools : HTML, CSS Frameworks, Bootstrap-5*
- **ios Calculator** : In this project, the goal is to make a functional and visual clone of the calculator of an iOS device. *Skills/Tools : HTML, CSS Frameworks, JS Dom Manipulation and Event Listeners.*
- **To - Do App** : In this project, a simple To-Do application was made using the array structure. User can add task from browser, mark tasks as completed and delete them. *Skills/Tools : JS Dom Manipulation and Event Listeners.*
- **Checkout Page** : Our goal was to develop a real e-commerce website's checkout page for that project. There is a cart for buying products, and we can increase or decrease the number of products. By changing a parameter in the cart, our js functions calculate the cart total price. DOM, iterator, callback functions, string-array functions and events are used in our page. Additionally, we can remove products from the cart by clicking the remove button and decreasing the amount to "0". In that case, our page asks us to delete the product from the cart. As soon as you confirm the deletion, the sour chart total is recalculated by the js functions. *Skills/Tools : DOM, Iterator, Callback functions, String-array functions and Events.*
- **World Flags App** : The goal of this project is to make an api request from <https://restcountries.com/> and to display the desired data about the countries. *Skills/Tools : Async, Await and Fetch.*
- **Weather Condition App** : The purpose of this project is to make a weather application using the <https://api.openweathermap.org/api>. It is to bring and display the weather conditions of the location desired by the user. *Skills/Tools : Async await methods.*
- **React Random User** : The purpose of this project is to build a random user app using ReactJS. It brings up different user information each time the button is pressed. *Skills/Tools : Axios, Reactjs, Bootstrap, Display-Grid and Flex methods.*
- **React Language Cards** : The purpose of this project is to build a language cards app using ReactJS. Demonstrates various programming languages. It gives detailed information when clicked on it. *Skills/Tools : Reactjs, Display-Grid methods.*
- **React Tour-Places** : The purpose of this project is to build a tour Project app using ReactJS. Shows travel destinations as cards and gives information on hover. *Skills/Tools : Reactjs, Sass, Display-Flex methods.*

- **Recipe App** : The purpose of this project is to build a recipe app using ReactJS. It shows the recipes and pictures that the user wants. *Skills/Tools : Reactjs, Axios, Styled-Components, React-Router-Dom, Display-Flex and Grid methods.*
- **Movie App** : In this project, it is aimed to display cinema posters by using the tmdb api. There is a search feature according to the entered word. *Skills/Tools : React-router library, Bootstrap library, Axios library and Firebase.*
- **Fire Contact App** : The purpose of this project is to build a FireContact App using ReactJS. The user is prompted to enter name, phone and gender information. This information is displayed on the screen by adding it to the table. *Skills/Tools : Reactjs, React-Router-Dom, React-Icons, Firebase.*
